Personal Profile

Solution-driven full stack web developer adept at contributing to highly collaborative work environment, finding solutions and determining customer satisfaction.

I've recently transitioned my career into the position after 7+ years in a results oriented logistics industry.

Extremely passionate towards software architecture and design combined with sensitivity to serve the needs of the business balanced with the delivery of high quality solutions.

Projects

Clean Kuts - www.cleankuts.com

A mobile app made for connecting clients with barbers to create a personalized and lasting relationship. Languages and Applications used:Ruby on Rails, HTML, SCSS, JS, Heroku, Figma, Trello, Bootstrap, ActiveRecord, PostgreSQL and GitHub.

Rent a Mon' - https://rentamon.herokuapp.com/

"A monument marketplace for anyone who wants to impress at a party!"The endgame was to create a spoof clone of Airbnb. Languages andApplications used: Ruby on Rails, HTML, SCSS, JS, Heroku, Figma, Trello,Bootstrap, Active Record, PostgreSQL and GitHub.
